## COOLING SYSTEM MOLDED COOLANT HOSE

**Gates molded coolant hose is manufactured to fit specific applications. Similar to OEM specifications.**

- › Recommend for upper, lower, by-pass, heater and other coolant hose applications.
- › Heat and ozone resistant cover.
- › Engineered to resist electrochemical degradation - the leading cause of hose failure.
- › Re-engineered materials resist vacuum collapse.
- › Meets SAE 20R4 and 20R3 Type EC Class D-1 and D-2 specifications.
- › Temperature rating: -40° F to 275° F [-40° C to 135° C] in coolant hose applications.
- › Gates recommends replacing standard worm drive and spring loaded clamps with Gates PowerGrip® SB Clamps each time a new coolant hose is installed.
