PTC Continues to Expand Seal Coverage, Including Heavy Duty Oil Bath Seals

PTC has added over **90 new seal numbers for 2017**. This brings the total seal product offering to **over 1000 sku's**, including oil bath seals for Heavy Duty Truck applications.

KEY DESIGN FEATURE ATTRIBUTES INCLUDE

- Produced to exact OE dimensional specifications to meet or exceed OE form, fit and function
- Machined rubber sealing edge provides better sealing surface
- Flanged design allows for easy installation and helps to avoid cocking
- Extra Dust Boot lip helps keep harmful contaminants out of the bearing, while protecting against rust and corrosion
- Latex core seals the outer diameter leak path and compensates for minor bore imperfections
- Over 1000 sku's available provide coverage for most Domestic, Asian and European applications
- 52 Heavy Duty Oil Bath Seals available, including "Press In" seals

DID YOU KNOW?

PTC has a complete offering of Oil Bath Seals for Heavy Duty coverage which includes "Press In" seal options for the most popular applications.

"Press In" seals are specifically designed to be easily installed by hand or installed using any brand or wheel installation tool. This helps reduce installation time and costs.
