**Updated  
51372**

**Previous  
51372**

Recently a popular original equipment service (OES) product has had a slight redesign by shortening the height of the can. Therefore, as a running change, the WIX 51372 will also have a slight reduction in the can's height.

The previous and new 51372 are fully interchangeable and suitable for use on all recommended applications.
